Hi Brad,

Do you have a lat/long for a point on the road and lat/longs for the exploration sites? I am trying to locate these locations.

Thanks,  
Krista

Hi Brad (Brad or Bradley?)

I'm afraid those times are not great. How about August 6, 2-330?

Hi Krista,

Thanks for the discussion today on the Gogebic Taconite (GTAC) project in Northern Wisconsin. It was very helpful to me to talk through this with you.

I looked at calendars and it appears that the follow dates and time ranges should work for a conference call:

Wednesday July 31<sup>st</sup> 8:00-10:00  
Monday August 5, 10:00-1:00  
Monday August 12, anytime in the afternoon

See if any of these would work for your folks and if not, I will carve out some other times. Otherwise please book a date and time and we will lock it in on our end.

I'll send something down to you on the overall mine site shortly.

Thanks again,
